DETAILED ACTION

1. Claims 1, 4-10, 13-19 & 22-27 are pending in the application.
2. Claims 2-3, 11-12 & 20-21 have been canceled.

EXAMINER'S AMENDMENT

Authorization for this examiner's amendment was given in a telephone interview with David A. Blumenthal on July 11th, 2005.

- In order to avoid a 35 U.S.C. 112, 2nd Paragraph rejection the claims have been amended as follows:
 - In Claim 13, line 1 replace "The system according to claim 1" with
.....The system according to claim 10.....

Allowable Subject Matter

4. Claims 1, 4-10, 13-19 & 22-27 and re-numbered as claims 1-21 respectively are allowable over the prior art of record because the cited references do not contain the specified limitation of a method of adaptive synchronization of a data sink device to a data source device coupled by a USB, comprising the steps of: receiving data at a buffer of said sink device at an average data rate representative of a data rate of said source device; determining a data level for said buffer based on input packet size and output packet size; comparing an

accumulated data level for said buffer with a threshold level; correcting a clock frequency for said sink device when said accumulated data level exceeds said threshold level, said corrective step correcting the clock frequency by an amount equal to a constant K divided by a drift time required for the accumulated data level to a drift from a reference level to the threshold level; and inhibiting a next execution of said comparing step and said correcting step for a predetermined period after said correcting step.
